Dear North Carolina Psychology Board Members:

My name is Jane Kelman. I am a licensed psychological associate (#1169) and have been practicing since 1987. I am writing in support of the rule change addressing supervision (21 NCAC 54 .2008). I have received clinical supervision for the last 32 years and feel that it is time for those LPAs who meet the qualifications as stated be released from perpetual clinical supervision. I feel that we need to be more accessible to the people of N.C. needing mental health services by being allowed to join insurance panels who currently deny us due to on-going supervision. In addition, it becomes costly to continue with supervision for the lifetime of your practice.

Thank you so much for your time and attention.

Sincerely, Jane Kelman M.A. L.P.A
